

Doug Ledbetter is a Senior Electrical Engineer at OpTerra Energy Services. He has over 25 years of experience in the utility and energy services industries. Doug works with customers and utilities to deploy distributed generation, energy storage, and microgrid technologies to enhance reliability and improve customer energy savings. He has been with OpTerra since 1998, received his B.S. in Electrical Engineering from UC Santa Barbara in 1990, and is an active member of IEEE.

Doug has worked on a variety of notable energy projects including the Alameda County Santa Rita Jail Microgrid, Chevron Technology Ventures' Solar to Steam Demonstration Project, Western Digital Substation and Distribution System, and Exar Corp's 1 MW Cogeneration System.
