**Bundled service customers' average rate impacts:**

<b>Total</b>	16.3 cents/kWh	18.2 cents/kWh	1.9 cents/kWh	11.7%

Note: Total percentage system revenue increase including bundled and non-bundled service customers is 12.9%

The rates and percentages shown above are averages and are not the exact changes you may see in your bill. Changes in individual bills depend on how much energy each customer uses.

**Why is SCE requesting this rate increase?** SCE delivers your electricity. Every four years, SCE must file what is known as a General Rate Case (GRC) application with the CPUC. GRCs set rates that customers pay to fund SCE's day-to-day operations, including maintenance for its equipment and electricity grid upgrades.

**How could this affect my monthly bill?** If SCE's rate request is approved by the CPUC, the average residential monthly bill would increase by approximately \$14 in 2021, \$4 in 2022, and \$6 in 2023.

**How does the rest of the process work?** This application has been assigned to a Judge, who will consider all proposals and evidence presented during the formal hearing process. The Judge will issue a proposed decision which may adopt SCE's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners.
