**Re: San Diego Gas & Electric Company Public Safety Power Shutoff Post-Event  
Report for January 14–16, 2021**

Dear Director Palmer:

Pursuant to Ordering Paragraph (OP) 2 of Commission Decision (D.) 12-04-024, Section II.A of Commission Resolution ESRB-8, D.19-05-042, and D.20-05-051, San Diego Gas & Electric Company (SDG&E) submits this report regarding the initiation of Public Safety Power Shutoff (PSPS) protocols that occurred in SDG&E's service area on January 14–16, 2021. While these protocols were initiated, SDG&E did not de-energize customers for safety in this time period. As noted in the PSPS reporting requirements, this report has been verified by an SDG&E officer in accordance with Rule 1.11 of the Commission's Rules of Practice and Procedure.

In accordance with D.19-05-042, this report has been distributed to the service lists for the following Commission rulemaking (R.) proceedings: R.18-10-007 and R.18-12-005.

If you have any questions regarding this report, please contact Elizabeth Beaver at 858-654-1787, or [ebeaver@sdge.com](mailto:ebeaver@sdge.com).

Sincerely,

/s/ Clay Faber

Clay Faber  
Director—Regulatory Affairs

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

This report covers the Public Safety Power Shutoff (PSPS) protocols implemented in SDG&E's service territory from January 14 through January 16, 2021. As discussed below, while SDG&E initiated its PSPS protocols, including customer notifications, SDG&E did not de-energize customers for public safety in this time period. SDG&E submits this report to the Director of Safety and Enforcement Division (SED) and the service lists for Rulemaking (R.) 18-12-005 and R.18-10-007. This report includes the information required by Decision (D.) 12-04-024, Section II.A of CPUC Resolution ESRB-8, D.19-05-042, and D.20-05-051.

The analysis and data provided in this report are based on the most current information available at the time and are subject to modification resulting from additional analyses and assessments completed following submission of the report.

- 1. An explanation of SDG&E's decision to de-energize, including an explanation of alternatives considered; mitigation measures used to decrease the risk of utility-caused wildfires in de-energized areas; a thorough and detailed description of the quantitative and qualitative factors SDG&E considered in calling, sustaining or curtailing the PSPS event, including information regarding why PSPS was a last resort option; and the specific conditions SDG&E determined must be present for the de-energization event to be concluded.**

### **Response:**

#### Explanation of the Decision to De-Energize

The decision to initiate PSPS protocols was made at SDG&E's Emergency Operations Center (EOC), which was staffed in a remote environment by a cross-functional team of electric operations, safety, meteorology, engineering, customer service, external affairs, communications, and other personnel, as well as a designated Utility Incident Commander (UIC) for the event. SDG&E implemented PSPS protocols to provide coordinated response; ensure there was informed decision-making; coordinate as-needed logistic support; and manage notifications to all affected stakeholders, including customers, state agencies, local jurisdictions, tribal governments, elected representatives, and public safety partners.

SDG&E's EOC was activated in a monitoring mode on January 13 at 1530 in response to weather forecasts indicating Santa Ana conditions, including strong winds and low humidity, were possible in portions of SDG&E's service area. Based on advanced forecasts, SDG&E anticipated the most severe winds and critical fire weather in areas of Orange County.

SDG&E weighs many inputs when making the decision to de-energize portions of its system, and leverages refined situational awareness data and input from its subject matter experts when considering the need for PSPS, though experience with the program has indicated it is not appropriate to use a prescriptive technique to determine when to use PSPS, as wildfire conditions are dynamic and not every situation is the same. When making the decision to de-energize, SDG&E considers the following factors:

- Weather conditions: SDG&E's Fire Potential Index (FPI) ratings, Red Flag Warnings (RFW) issued by the National Weather Service (NWS), and the Santa Ana Wildfire Threat Index (SAWTI);

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

- Vegetation conditions and SDG&E’s Vegetation Risk Index;
- Field observations and flying/falling debris;
- Information from first responders;
- Meteorological data, including 10-years of historical information from weather stations and 99th and 95th percentile winds;
- Expected duration of conditions;
- Location of any existing fires;
- Wildfire activity in other parts of the state affecting resource availability;
- Information on temporary construction.

SDG&E has not developed a specific PSPS algorithm that lists, quantifies, and calculates the weight of each factor that is incorporated into a PSPS. SDG&E has developed and published information regarding the factors and weights that go into the determination of the fire environment severity which is included in the FPI and SAWTI sections of SDG&E’s 2020 Wildfire Mitigation Plan (WMP).<sup>1</sup>

In addition to local weather conditions, SDG&E closely monitored and considered wildfire activity throughout the region and the availability of fire suppression resources to the area. After monitoring and considering weather conditions, de-energizations for public safety were not implemented during this event. The central considerations in determining if PSPS were warranted are detailed below.

### Weather Forecasts and Conditions

**Summary:** The NWS issued a RFW for Inland Orange County (Zone 554) effective January 14 at 1600 until January 16 at 1600 for widespread gusty winds accompanied by hot and dry conditions.

**Weather Forecasts:** SDG&E weather models showed the potential for a weak to locally moderate Santa Ana wind event, with gusty winds localized to mountain ridges in the backcountry areas. Wind-prone locations were projected to see isolated wind gusts over 45 mph. The NWS was forecasting peak wind gusts of 45–50 mph, with relative humidity values dropping to 8–12%.

**Weather Conditions:** Sixteen high temperature records were broken in the Southwestern California area during this event, and humidity levels dropped into the teens and single digits. The maximum wind gust recorded on SDG&E weather stations was 82 mph at Sill Hill, with six stations reaching or exceeding 60 mph, nine reaching or exceeding 56 mph, and 21 stations reaching or exceeding 45 mph. 19 SDG&E weather stations met or exceeded their 99th percentile wind gust, and 73 met or exceeded their 95th percentile wind gust.

**Local Fire Conditions and Fire Potential:** Areas forecast to be the windiest still had patchy snow cover from the last storm, as well as damp and muddy soil conditions. This

---

1

<https://www.sdge.com/sites/default/files/regulatory/SDG%26E%202020%20Wildfire%20Mitigation%20Plan%20Revised%2003-02-2020.pdf>

## **SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

created less of a fire concern, as it would take longer for the light flashy fuels to dry out than in the areas forecast to receive much lighter winds. With hot and dry weather conditions in place, the service territory was under a low-end Elevated FPI of 12.

Local, State, and federal suppression resource levels were monitored and appeared to be adequately staffed throughout the weather event.

### Alternatives Considered

In the days leading up to potential PSPS events, including the events described in this report, SDG&E meteorologists closely monitor weather forecasts to identify the specific areas most likely to experience weather conditions that warrant PSPS. Operational groups use these targeted forecasts to strategically stage field crews and observers in areas anticipated to experience the most severe weather.

Once fire weather conditions materialize, stations in SDG&E's weather network provide reading of conditions including wind speeds, temperatures, and relative humidity every 30 seconds. This data is monitored in real time by staff at SDG&E's EOC and used to determine if PSPS should be implemented. This close monitoring and frequent updating of location-specific data enables SDG&E to implement PSPS only as a last resort when conditions warrant de-energization.

After monitoring and considering weather conditions, de-energizations for public safety were not implemented during this event.

### Mitigation Measures to Decrease Utility-Caused Fire Risk in De-Energized Areas

Not applicable as no areas were de-energized during this event.

### Conditions to Conclude the PSPS Event

Similar to the decision to initiate PSPS protocols, the decision to conclude a PSPS event is based on a number of factors.

During this event, SDG&E Meteorologists utilized real time weather station data and forecast models to determine critical fire weather conditions had peaked and were trending weaker, without any indication of potential resurgence of conditions that could necessitate PSPS.

Based on favorable weather conditions and expiration of the Red Flag Warning, SDG&E's UIC approved conclusion of the PSPS event and demobilization of SDG&E's EOC.

## **SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 2. All factors considered by SDG&E in its decision to de-energize, including wind speed, temperature, humidity, and vegetation moisture in the vicinity of the de-energized circuits.**

### **Response:**

The decision to implement PSPS is not based on a single factor; numerous criteria are considered when making this decision.

During the January 14–16 event, key bases for determining if PSPS were necessary included, but were not limited to:

- The FPI was rated Elevated for all inland districts and Orange County on January 14 and for all districts in SDG&E's service area January 15–16;
- Weather forecasts indicated the potential for Santa Ana winds with isolated gusts over 45 mph, along with abnormally hot temperatures and very dry conditions;
- The SAWTI was rated Moderate for January 14–16, indicating that upon ignition, fires will grow rapidly and will be difficult to control;
- Official NWS forecasts mentioned the potential for wind gusts of 45–50 mph, with stronger localized gusts in the most wind-prone locations;
- A Red Flag Warning was issued for portions of Orange County from January 14 at 1600 through January 16 at 1600;
- Wind climatology of each circuit or circuit segment to include the 95th and 99th percentile winds from nearly 10 years of collecting weather data every 10 minutes from every station.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 3. An explanation of how the utility determined the benefit of de-energization outweighed potential public safety risks.**

**Response:**

Not applicable; no customers were impacted by de-energizations during this event.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 4. The time, place, and duration of the event and whether the areas affected by the de-energization are classified as Zone 1, Tier 2, or Tier 3 per the definition in General Order 95, Rule 21.2-D. If service is not restored within 24-hours of the termination of the PSPS event, SDG&E must explain why it was not able to timely restore service.**

**Response:**

Not applicable; no customers were impacted by de-energizations during this event.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 5. Describe how sectionalization was considered/implemented and the extent to which it impacted the size and scope of the de-energization event.**

**Response:**

SDG&E did not utilize sectionalization to mitigate customer impacts during this event, as no de-energizations for public safety were initiated.

SDG&E used sectionalizing devices to send warning messages and notifications of potential PSPS impacts to specific, more precise customer groups.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 6. The number of affected customers, broken down by residential, medical baseline, commercial/industrial and other.**

**Response:**

Not applicable; no customers were impacted by de-energizations during this event.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 7. Describe any wind-related damage to SDG&E’s overhead powerline facilities in the areas where power was shutoff.**

**Response:**

Not applicable; no facilities were de-energized during this event.

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

- 8. Provide a description of the customer notice and any other mitigation provided by SDG&E. Include a copy of all notifications, the timing of notifications, the methods of notifications and who (IOU or public safety partner) made the notification. If SDG&E failed to provide notifications according to the timelines set forth in the CPUC PSPS Guidelines (see D.19-05-042), include an explanation of the circumstances that resulted in such failure. Include the number of false communications made and an explanation for any false communications by citing the sources of changing data.**

### **Response:**

Starting on January 13, SDG&E notified customers in areas that would potentially be impacted by PSPS on January 14. Notifications were made via outbound dialer, email, text message, and personal phone calls. Helpful information was also shared on SDG&E's websites (SDGE.com and SDGEnews.com), SDG&E Alerts app, SDG&E's social media channels (Twitter, Facebook, Instagram, Nextdoor) and with local, state, and national news media outlets.

On January 13, SDG&E provided verbal notice of the potential PSPS event to the Office of the Governor of California and staff for Senator Toni Atkins. No additional communications to elected officials were made during this event, as conditions warranting implementation of PSPS did not materialize and no customers were de-energized.

See Appendix 1 for detailed information regarding customer notifications

See Appendix 2 for details of notifications to Public Safety and Community Partners

See Appendix 3 for details of notifications to the CPUC

See Appendix 4 for details of notifications to Cal OES

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

9. **For those customers where positive or affirmative notification was attempted, an accounting of the customers (which tariff and/or access and functional needs population designation), the number of notification attempts made, the timing of attempts, who made the notification attempt (utility or public safety partner) and the number of customers for whom positive notification was achieved.**

### **Response:**

All customer notifications were made by SDG&E. During this event, SDG&E successfully made affirmative notifications to MBL customers who were not reached by phone. SDG&E completed 14 in-person notifications for customers during this event.

See Appendix 1 for detailed information regarding customer notifications.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

- 10. The address of each community assistance location during a de-energization event, describe the location (building, trailer, etc.), describe the assistance available at each location, and the days and hours it was open.**

**Response:**

SDG&E did not open Community Resource Centers during this event, as no customers were de-energized for public safety.

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

### 11. A description and evaluation of engagement with local and state public safety partners and community partners in providing advanced outreach/notification during the PSPS event.

#### Response:

SDG&E works throughout the year leading up to wildfire season on education and outreach with its local and state public safety partners and community partners. In 2020, education and outreach included in-person tours and trainings. Due to the COVID-19 pandemic, SDG&E has conducted its education and outreach through virtual tours, webinars, and trainings.

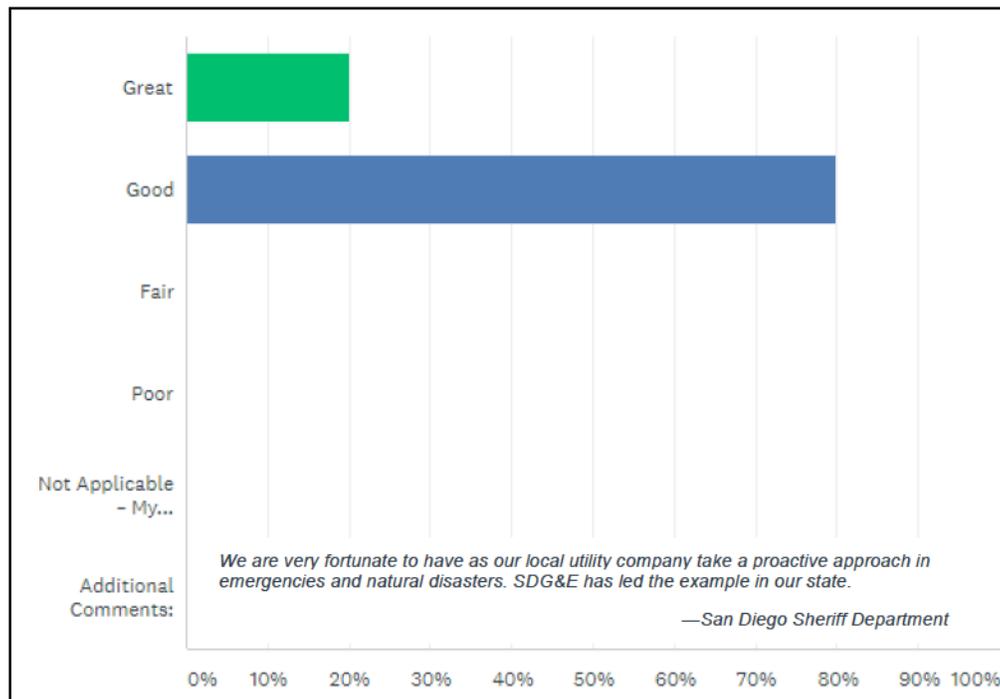

SDG&E worked extensively with state and regional partners throughout this event, including extensive and multiple daily briefings with representatives from CalOES, CPUC, CalOES Tribal Affairs, County OES and 2-1-1. Additionally, SDG&E partnered with San Diego County OES, AFN Working Group, 2-1-1 San Diego, 2-1-1 Orange County, and community-based organizations (CBOs) to amplify key messaging through their databases and social media channels, and to translate PSPS notification into other languages.

The following is a description of specific engagement during the January 14–16 event:

Throughout the event, SDG&E remained engaged with its local and state public safety partners by providing advanced notification to all appropriate partners and monitoring its communication channels throughout the duration of the event.

Immediately following the PSPS event, SDG&E distributed a one question online survey to public safety partners requesting they rate SDG&E’s level of engagement with their organization before and during the January 14–16 event. SDG&E received five responses to the survey. Please see below for the level of engagement results of the survey:

#### SDG&E Public Safety Partner Survey Results: Jan. 14–16 PSPS Event

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**12. The local communities' representatives SDG&E contacted prior to de-energization and the date on which they were contacted.**

**Response:**

Please see Appendix 2 for details of notifications to Public Safety and Community Partners  
Please see Appendix 4 for details of notifications to Elected Officials and Representatives

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**13. Summarize the number and nature of complaints received as a result of de-energization event and include claims that are filed against SDG&E because of the de-energization.**

**Response:**

As of January 28, 2021, SDG&E received one (1) claim related to the January 14–16 PSPS event:

<b>Claim type</b>	<b># received</b>
Property damage	0
Solar related	0
Food loss	0
Inconvenience of being without power	0
Business loss	0
Hotel stays	0
Generator	1
<b>TOTAL</b>	<b>1</b>

As of January 28, 2021, SDG&E received zero complaints for the PSPS event covered by this report.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**14. Provide detailed timeline and description of the steps taken to restore power.**

**Response:**

Not applicable; no facilities were de-energized during this event.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**15. Lessons learned by SDG&E from the PSPS event.**

**Response:**

Due to the limited scope of this event, which did not result in any de-energizations, there were no new lessons learned to report. All preparatory activities ran smoothly.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**16. Recommended updates/modifications the PSPS guidelines adopted in ESRB-8, D.19-05-042, and D.20-05-051.**

**Response:**

At this time, SDG&E does not have any recommended updates/modifications to the PSPS guidelines beyond those SDG&E provided in PSPS post-event reports for events that occurred in 2020.

SDG&E looks forward participating in Phase 3 of the De-Energization rulemaking proceeding (R.18-12-005) to review and refine the PSPS guidelines.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**17. Include any other matters that SDG&E believes are relevant to the Commission’s assessment of the reasonableness of SDG&E’s decision to de-energize.**

**Response:**

SDG&E does not have any other matters to share at this time.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

**VERIFICATION**

I am an officer of San Diego Gas & Electric Company and am authorized to make this verification on its behalf. I declare under penalty of perjury that the contents of the foregoing document are true to my own knowledge, except as to matters that are stated on information and belief, and as to those matters, I believe them to be true.

Executed this 29th day of January 2021, at San Diego, California.

**SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

		<p>We know being without electricity is difficult and that many customers in our communities were recently without power. We continue to staff these high fire weather risk events with our highly skilled staff and crews to minimize disruptions to our communities.</p> <p>Thank you for your continued partnership, SDG&amp;E Liaison Officer</p>
<p>3. SDG&amp;E Public Safety Power Shutoff possible in 24-48 hours. SDG&amp;E monitoring conditions.</p>	<p>1/14/2021 15:20</p>	<p><b>This is an important safety message from SDG&amp;E.</b></p> <p>The National Weather Service has issued a Red Flag Warning in effect today at 4:00 p.m., through Friday, January 15 at 4:00 p.m., for the inland and mountain areas of Orange County. While a Red Flag Warning has not been issued for San Diego County, we are monitoring moderate Santa Ana winds forecast throughout the region through the evening on Saturday, January 16. Weather conditions could result in an additional Red Flag Warning to include portions of San Diego County Saturday afternoon through evening. While we have activated our Public Safety Power Shutoff Protocols, the Emergency Operations Center will be in a monitoring mode only until/unless the conditions change and warrant an activation. Due to the potential for <a href="#">high fire weather risk conditions</a> power lines serving local communities could be impacted.</p> <p>The following communities are being monitored and may be impacted:</p> <ul style="list-style-type: none"> <li>• Alpine</li> <li>• Boulevard</li> <li>• Campo</li> <li>• Campo Reservation</li> <li>• Cuyapaipe Reservation</li> <li>• Descanso</li> <li>• Jamul</li> <li>• Julian</li> <li>• La Jolla Reservation</li> <li>• La Posta Reservation</li> <li>• Manzanita Reservation</li> <li>• Mesa Grande Reservation</li> <li>• Mount Laguna</li> <li>• Pala</li> <li>• Palomar Mountain</li> <li>• Pauma Valley</li> <li>• Pauma and Yuima Reservation</li> <li>• Pine Valley</li> <li>• Potrero</li> </ul>

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

	<ul style="list-style-type: none"><li>• Ramona</li><li>• Ranchita</li><li>• Santa Ysabel</li><li>• Santa Ysabel Reservation</li><li>• Valley Center</li><li>• Viejas Reservation</li></ul> <p>If weather conditions deteriorate, the estimated start time for Public Safety Power Shutoff could be today at 4:00 p.m. and could last until Saturday, January 16, at 10:00 p.m. We estimate approximately 11,052 customers could be impacted with 706 Medical Baseline (MBL) customers living in the potentially impacted areas. Notifications are being sent to the customers within the impacted areas.</p> <p>If you have obtained geographic information systems (GIS) data access from SDG&amp;E, you will be able to receive GIS data via secure data transfer. **Subject:** SDG&E PSPS Protocols Initiated: Santa Ana Wind Event/Red Flag Warning Expected for January 14-15  
**Date:** Wednesday, January 13, 2021 16:23:56

---

Good afternoon,

SDG&E is initiating its Public Safety Power Shutoff (PSPS) protocols based on a Red Flag Warning (RFW) issued by the National Weather Service (NWS) today at 1414 for Orange County. The RFW will be in effect for Orange County starting 1600 on Thursday, January 14 through 1600 on Friday, January 15.

While San Diego was not included in the RFW issued by the NWS today, we are activating our PSPS protocols out of an abundance of caution in case the NSW extends the RFW into San Diego County to ensure we have time for customer notifications. SDG&E has not activated its Emergency Operations Center (EOC) at this time. SDG&E's EOC staff will remain in a monitoring and planning mode until further notice.

### PSPS Notifications and Potential Impacts

Notice is being provided to public safety partners as well as potentially impacted customers today. Based on weather forecasts, 11,052 customer accounts will potentially be impacted by this event, including 706 MBL customers and 431 Life Support customers. Please note, customer impacts are preliminary at this time. The potential communities impacted include:

- Alpine
- Boulevard
- Campo
- Campo Reservation
- Cuyapaipa Reservation
- Descanso
- Jamul
- Julian
- La Jolla Reservation
- La Posta Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- Mount Laguna
- Pala
- Palomar Mountain
- Pauma Reservation
- Pauma Valley
- Pine Valley
- Potrero
- Ramona
- Ranchita

## **SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021**

Santa Ysabel  
Santa Ysabel Reservation  
Valley Center  
Viejas Reservation  
Yuima Reservation

### Next Update

Unless there are changes requiring immediate notification, we will provide another update tomorrow, Thursday, January 14. The state executive briefings will be updated tomorrow and the meeting series will be sent by SDG&E's Emergency Management department.

Thank you,  
SDG&E Regulatory Affairs

---

Hello,

SDG&E continues to monitor forecasts for Santa Ana winds and critical fire weather conditions anticipated to impact portions of SDG&E's service area beginning in the evening tonight, Thursday, January 14. SDG&E has not activated its EOC at this time. SDG&E's EOC will operate in a monitoring mode starting tonight. We will provide notification to the CPUC if/when the conditions change and warrant an activation. Unless there are changes requiring immediate notification, we will provide another update tomorrow, Friday, January 15.

Based on updated forecasts, fire weather conditions are now expected to potentially continue through the late evening on Saturday, January 16. The RFW issued by the NWS for Orange County will go into effect at 1600 today, and will remain in place through 1600 Friday, January 15. An additional RFW may be issued for Saturday afternoon and evening that could include portions of San Diego County.

### PSPS Notifications and Potential Impacts

Initial notifications were provided to public safety partners, as well as potentially impacted customers, yesterday, Wednesday, January 13. Initial notice was provided to customers associated with 11,052 accounts, including 706 MBL and 431 Life Support (LS) customers.

The potential communities impacted include:

- Alpine
- Boulevard Campo
- Campo Reservation
- Cuyapaipe Reservation
- Descanso
- Jamul
- Julian
- La Jolla Reservation
- La Posta Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- Mount Laguna
- Pala
- Palomar Mountain
- Pauma Reservation
- Pauma Valley
- Pine Valley
- Potrero
- Ramona
- Ranchita
- Santa Ysabel
- Santa Ysabel Reservation
- Valley Center
- Viejas Reservation
- Yuima Reservation

### Next Update

Unless there are changes requiring immediate notification, we will provide another update tomorrow, Friday, January 15.

Thank you,  
SDG&E Regulatory Affairs

---

Hello,

SDG&E continues to monitor weather conditions and forecasts for Santa Ana winds and low humidities in portions of Southern California. The RFW for Orange County has been extended by the NWS through Saturday, January 16, at 1600. SDG&E's EOC will remain in a monitoring mode through the expiration of the RFW.

There are currently no active PSPS outages impacting SDG&E customers. SDG&E has provided an all clear notification to customers who received notice for this initial event. However, due to the extension of the RFW, our EOC will continue to operate in a monitoring mode.

Additionally, updated forecasts indicate strong winds are likely in SDG&E's service area beginning early next week (January 18-January 19). We will provide additional details tomorrow, January 16, regarding the event expected for next week based on updated forecasts.

Thank you,  
SDG&E Regulatory Affairs

## SDG&E Report on Public Safety Power Shutoff Event: January 14–16, 2021

**From:** [SDGE EOC Regulatory Notifications](#)  
**To:** [SDGE EOC Regulatory Notifications](#); [CPUC PSPS Notifications](#)  
**Cc:** [Emergency Operations](#); [Skopec, Dan](#); [Faber, Clay](#); [Blattner, William](#); [Kloberdanz, Kari](#); [Sidhar, Shivani N](#); [Beaver, Elizabeth](#); [Raaqas, Kirstie](#)  
**Subject:** RE: SDG&E PSPS Protocols Initiated: Santa Ana Winds/Fire Weather Conditions for January 14-16  
**Sent:** Saturday, January 16, 2021 14:10:05

---

Good afternoon,

SDG&E continues to monitor weather conditions as strong, widespread winds are forecast in San Diego County beginning Monday, January 18, through Wednesday, January 20. However, due to higher humidity values and the chance of rain, the fire danger has lessened in the region and Public Safety Power Shutoffs are not anticipated at this time. As such, SDG&E will return to normal operations and on-duty staff monitoring as of 4pm, January 16.

There are currently no active Public Safety Power Shutoff outages impacting SDG&E customers. On Friday, January 15, SDG&E provided an all clear notification to customers who received notice of the potential for a Public Safety Power Shutoff. SDG&E's team of meteorologists continue to monitor weather conditions to ensure the safety of our system. We will provide additional notification if weather conditions change.

SDG&E will distribute its post-event report within 10 business days of the conclusion of this event (January 16, 2021) in accordance with the guidelines set forth in Resolution ESRB-8, Decision (D.) 12-04-024, D.19-05-042, and D.20-05-051.

Thank you,  
SDG&E Regulatory Affairs
