*This workshop will be held via WebEx. All workshop participants will be muted during the introduction and speaker presentations. During the discussion, participants may use either the “raise your hand” WebEx button online or the Chat window to comment/ask questions. Call-in users may dial *3 to raise their hand. Questions/comments will be addressed in the order received.*

Close Captioning is available by clicking the “cc” at the bottom left of the screen.

Although a quorum of Commissioners, their advisors or other decision-makers may be present, no action will be taken at this event.

Background:

In May through August of 2021, in the Resiliency and Microgrids Working Group (RMWG) meetings, staff presented the “4-Pillar Methodology” as a guiding framework and problem-solving approach for examining how to increase equitable electric resiliency, as it is currently understood, in a sequential, scalable, and iterative manner. The 4-Pillar Methodology is intended to help decision makers evaluate solutions to resiliency challenges ranging from the individual project-level up to the grid-planning level. With this methodology, staff is building on current processes with operating tools that aid in identifying what regulatory actions would be necessary to advance such resiliency.

Purpose of the Meeting:

This informational session will focus on “Resiliency Standards and Grid Resilience Planning –

Resiliency Methodologies”. CPUC Staff will provide an overview of the current Integrated Resource Planning (IRP) process, and Lumen will facilitate discussions exploring potential opportunities for local authorities, community leaders, load-serving entities, and state regulators to integrate resiliency into the broader grid planning perspective, with a focus on IRP. This informational session is intended to deepen stakeholder’s education, knowledge, and inquiry about the topic, as well as to provide them an opportunity to ask questions and provide input.

Meeting Agenda:

- | | | |
|-------------|---|------------------------|
| I. | Introduction (<i>CPUC Staff</i>) | 9:00a – 9:05a |
| | <ul style="list-style-type: none">• WebEx logistics, agenda review | |
| II. | Opening Remarks, Commissioner Shiroma | 9:05a – 9:10a |
| | a. Background and Context (<i>CPUC Staff</i>) | 9:10a – 9:30a |
| III. | Overview of the Current Integrated Resource Planning Process
(<i>CPUC Staff</i>) | 9:30a – 10:05a |
| IV. | Resiliency Standards and Grid Resiliency Planning: Methodologies
(<i>Lumen Energy Strategy</i>) | |
| | a. Recap of Resilience Metrics and Stakeholder Feedback | 10:05a – 10:25a |
| | b. Methodology for Local Resilience Planning Considering Grid Benefits | 10:25a – 11:10a |
| | Q & A | |
| | c. Break | 11:10a – 11:15a |
| | d. Methodology for IRP Process Incorporating Local Resilience Needs | 11:15a – 11:55a |
| | Q & A | |
| V. | Closing Remarks, Commissioner Shiroma | 11:55a – 12:00p |
| | <ul style="list-style-type: none">• Provide information on upcoming workshops (<i>CPUC Staff</i>) | |
